THE MORSE CODE

EFRE 2026  
6<sup>th</sup> ANNUAL CONFERENCE

## MESSAGE FROM PROF. EMAN ELGINDY EFRE CHAIR OF THE BOARD OF TRUSTEES

As we gather once again under the banner of EFRE, it fills me with pride to witness how this community continues to grow, innovate, and lead.

The 6th EFRE Conference, “**The MORSE CODE**,” is not only a scientific meeting — it is a journey toward understanding the deeper language of life, fertility, and hope.

EFRE has always been more than an organization; it is a movement that bridges generations of experts, connects ideas across disciplines, and nurtures the next wave of scientific thinkers.

In 2026, our mission remains steadfast: to inspire excellence, foster collaboration, and translate knowledge into meaningful change for patients everywhere.

May this conference be a milestone of ideas, friendships, and discoveries. Together, we continue to decode the mysteries of reproduction — and with every message shared, we move closer to a healthier, more connected world.

## MESSAGE FROM PROF. SALAH RASHEED THE CONFERENCE PRESIDENT

It is with great pleasure that I welcome you to the 6th International EFRE Conference 2026 - **EFRE: The Morse Code.**

Every year, EFRE brings together brilliant minds and dedicated professionals who share one mission: advancing the science and art of reproductive medicine. This year's theme, The Morse Code, symbolizes the intricate patterns of communication within our field - the messages hidden in every signal, every discovery, and every patient story.

**Under the slogan Breaking the Code,** we invite all participants to engage deeply, challenge ideas, and unlock new ways of understanding fertility, genetics, and innovation.

Together, through science and collaboration, we can decode the complexities that shape reproductive health and turn them into meaningful progress.

**Welcome to Cairo, and EFRE 2026 - where every message matters.**

**EFRE 2026**  
**6<sup>th</sup> ANNUAL CONFERENCE**

## MESSAGE FROM **DR. ASHRAF ABO ALI** EFRE EXECUTIVE PRESIDENT

As EFRE continues to expand its impact across the region, our vision remains clear to build a unified scientific community that advances reproductive medicine through knowledge, and innovation.

**The 6th EFRE Conference, The Morse Code**, is not only a scientific gathering but a reflection of EFRE's ongoing mission to translate research into real progress – to connect signals from the lab, the clinic, and the human experience.

Our role, as EFRE, goes beyond organizing events; it is about setting standards, inspiring collaboration, and ensuring that every step forward in fertility care is grounded in integrity and science.

I take great pride in witnessing EFRE's growth, the dedication of its members, and the passion of every young scientist who joins this journey. Together, we are not only breaking the code – we are writing the next one.
